Pride Ibi Zoboi,2018-09-18 In a timely update of Jane Austen's *Pride and Prejudice*, National Book Award finalist Ibi Zoboi skillfully balances cultural identity, class, and gentrification against the heady magic of first love in her vibrant reimagining of this beloved classic. A smart, funny, gorgeous retelling starring all characters of color. Zuri Benitez has pride. Brooklyn pride, family pride, and pride in her Afro-Latino roots. But pride might not be enough to save her rapidly gentrifying neighborhood from becoming unrecognizable. When the wealthy Darcy family moves in across the street, Zuri wants nothing to do with their two teenage sons, even as her older sister, Janae, starts to fall for the charming Ainsley. She especially can't stand the judgmental and arrogant Darius. Yet as Zuri and Darius are forced to find common ground, their initial dislike shifts into an unexpected understanding. But with four wild sisters pulling her in different directions, cute boy Warren vying for her attention, and college applications hovering on the horizon, Zuri fights to find her place in Bushwick's changing landscape, or lose it all. Zoboi skillfully depicts the vicissitudes of teenage relationships, and Zuri's outsize pride and poetic sensibility make her a sympathetic teenager in a contemporary story about race, gentrification, and young love. Uncharted: The Fourth Labyrinth Christopher Golden,2011-10-04 The official novel of Naughty Dog's award-winning

videogame franchise! In the ancient world there was a myth about a king, a treasure, and a hellish labyrinth. Now the doors to that hell are open once again. Nathan Drake, treasure hunter and risk taker, has been called to New York City by the man who taught him everything about the “antiquities acquisition business.” Victor Sullivan needs Drake’s help. Sully’s old friend, a world-famous archaeologist, has just been found murdered in Manhattan. Dodging assassins, Drake, Sully, and the dead man’s daughter, Jada Hzuajak, race from New York to underground excavations in Egypt and Greece. Their goal: to unravel an ancient myth of alchemy, look for three long-lost labyrinths, and find the astonishing discovery that got Jada’s father killed. It appears that a fourth labyrinth was built in another land and another culture—and within it lies a key to unmatched wealth and power. An army of terrifying lost warriors guards this underground maze. So does a monster. And what lies beyond—if Drake can live long enough to reach it—is both a treasure and a poison, a paradise and a hell. Welcome to The Fourth Labyrinth.

Heatstroke Anthony D. Barnosky,2010-04-16 In 2006, one of the hottest years on record, a “pizzly” was discovered near the top of the world. Half polar bear, half grizzly, this never-before-seen animal might be dismissed as a fluke of nature. Anthony Barnosky instead sees it as a harbinger of things to come. In Heatstroke, the renowned paleoecologist shows how global warming is fundamentally changing the natural world and its creatures. While melting ice may have helped produce the pizzly, climate change is more likely to wipe out species than to create them. Plants and animals that have followed the same rhythms for millennia are suddenly being confronted with a world they’re unprepared for—and adaptation usually isn’t an option. This is not the first time climate change has dramatically transformed Earth. Barnosky draws connections between the coming centuries and the end of the last ice age, when mass extinctions swept the planet. The differences now are that climate change is faster and hotter than past changes, and for the first time humanity is driving it. Which means this time we

can work to stop it. No one knows exactly what nature will come to look like in this new age of global warming. But *Heatstroke* gives us a haunting portrait of what we stand to lose and the vitality of what can be saved.

The Emperor of All Maladies Siddhartha Mukherjee, 2011-08-09 Winner of the Pulitzer Prize and a documentary from Ken Burns on PBS, this New York Times bestseller is “an extraordinary achievement” (The New Yorker)—a magnificent, profoundly humane “biography” of cancer—from its first documented appearances thousands of years ago through the epic battles in the twentieth century to cure, control, and conquer it to a radical new understanding of its essence. Physician, researcher, and award-winning science writer, Siddhartha Mukherjee examines cancer with a cellular biologist’s precision, a historian’s perspective, and a biographer’s passion. The result is an astonishingly lucid and eloquent chronicle of a disease humans have lived with—and perished from—for more than five thousand years. The story of cancer is a story of human ingenuity, resilience, and perseverance, but also of hubris, paternalism, and misperception. Mukherjee recounts centuries of discoveries, setbacks, victories, and deaths, told through the eyes of his predecessors and peers, training their wits against an infinitely resourceful adversary that, just three decades ago, was thought to be easily vanquished in an all-out “war against cancer.” The book reads like a literary thriller with cancer as the protagonist. Riveting, urgent, and surprising, *The Emperor of All Maladies* provides a fascinating glimpse into the future of cancer treatments. It is an illuminating book that provides hope and clarity to those seeking to demystify cancer.

Monkeytalk Julia Fischer, 2017-01-04 "Recommended for nonspecialists intrigued by animal intelligence and fans of Frans de Waal's Are We Smart Enough To Know How Smart Animals Are?" —Library Journal Monkey see, monkey do—or does she? Can the behavior of non-human primates really be chalked up to simple mimicry? Emphatically, absolutely: no. And as famed primatologist Julia Fischer reveals, the human bias inherent in this oft-uttered adage is our loss, for it is only through the study of our primate brethren that we may begin to understand ourselves. An eye-opening blend of storytelling, memoir, and science, Monkeytalk takes us into the field and the world's primate labs to investigate the intricacies of primate social mores through the lens of communication. After first detailing the social interactions of key species from her fieldwork—from baby-wielding male Barbary macaques, who use infants as social accessories, to aggression among the chacma baboons of southern Africa and male-male tolerance among the Guinea baboons of Senegal—Fischer explores the role of social living in the rise of primate intelligence and communication, ultimately asking what the ways in which other primates communicate can teach us about the evolution of human language. Funny and fascinating, Fischer's message is clear: The primate heritage visible in our species is far more striking than the reverse, and it is the monkeys who deserve to be seen. "The social life of macaques and baboons is a magnificent opera," Fischer writes. "Permit me now to raise the curtain on it." A Scientific American recommended book "A lively, personal, and nuanced perspective on primate behavior." —Dorothy L. Cheney and Robert M. Seyfarth, coauthors of How Monkeys See the World and Baboon Metaphysics

Into the Wild Jon Krakauer, 2009-09-22 NATIONAL BESTSELLER • In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. Four months later, his decomposed body was found by a moose hunter. This is the unforgettable story of how Christopher Johnson McCandless came to die. It may be nonfiction, but *Into the Wild* is a mystery of the highest order. —Entertainment Weekly McCandless had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Not long after, he was dead. *Into the Wild* is the mesmerizing, heartbreaking tale of an enigmatic young man who goes missing in the wild and whose story captured the world’s attention. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce

of sentimentality. Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.
