The Civilizing Process Norbert Elias, 2000-07-13 The Civilizing Process stands out as Norbert Elias' greatest work, tracing the civilizing of manners and personality in Western Europe since the late Middle Ages by demonstrating how the formation of states and the monopolization of power within them changed Western society forever.

Hands of Light Barbara Ann Brennan, 2011-03-23 With the clarity of a physicist and the compassion of a gifted healer with fifteen years of professional experience observing 5,000 clients and students, Barbara Ann Brennan presents the first in-depth study of the human energy field for people who seek happiness, health and their full potential. Our physical bodies exist within a larger body, a human energy field or aura, which is the vehicle through which we create our experience of reality, including health and illness. It is through this energy field that we have the power to heal ourselves. This energy body -- only recently verified by scientists, but long known to healers and mystics -- is the starting point of all illness. Here, our most powerful and profound human interactions take place, the precursor and healer of all physiological and emotional disturbances. *Hands of Light* is your guide to a new wholeness. It offers:

- A new paradigm for the human, in health, relationship, and disease
- An understanding of how the human energy field looks, functions, is disturbed, healed, and interacts with friends and lovers.
- Training in the ability to see and interpret auras
- Medically verified case studies of healing people from all walks of life with a variety of illnesses.
- Guidelines for healing the self and others.
- The author's personal and intriguing life adventure which gives us a model for growth, courage and possibilities for expanded consciousness

The Maias Jose Maria de Eça de Queirós, 2003-04 In this simple tale, the novel's hero is the talented heir to a notable family in Lisbon. He aspires to serve his fellow man in his chosen profession of medicine, in the arts, and in politics. But he enters a society affected by powerful international influences--French intellectual developments, English trading practices--that trouble and frustrate him. In the end he is reduced to a kind of spiritual helplessness and his good intentions are reduced to dilettantism. His passionate love affair begins to suffer a devastating constraint.

Flesh and Stone Richard Sennett, 2002 From Classical Greece and Rome to medieval and Renaissance Europe, from Hogarth's London to the metropolis of today, cities have been at the centre of human existence for thousands of years. By examining individual cities at their most pivotal moments in history, and the way people lived in them, Richard Sennett traces

changing attitudes to concepts such as space, burial, sanctuary and planning. He provides fascinating insights into the interaction between the human body and the spaces of the city it inhabits, evoking the sounds, smells and bustle throughout the centuries. And he asks whether modern cities starve people's sensual experience.

Amadis of Gaul, 1872 Prose romance of chivalry, possibly Portuguese in origin. The first known version of this work, dating from 1508, was written in Spanish by Garci Ordóñez (or Rodríguez) de Montalvo, who claimed to have corrected and emended corrupt originals. Internal evidence suggests that the Amadís had been in circulation since the early 14th century or even the late 13th. Cf. Encyclopaedia Britannica.

Physics of the Future Michio Kaku, 2011-03-15 NATIONAL BESTSELLER • The renowned theoretical physicist and national bestselling author of *The God Equation* details the developments in computer technology, artificial intelligence, medicine, space travel, and more, that are poised to happen over the next century. “Mind-bending.... [An] alternately fascinating and frightening book.” —San Francisco Chronicle Space elevators. Internet-enabled contact lenses. Cars that fly by floating on magnetic fields. This is the stuff of science fiction—it’s also daily life in the year 2100. Renowned theoretical physicist Michio Kaku considers how these inventions will affect the world economy, addressing the key questions: Who will have jobs? Which nations will prosper? Kaku interviews three hundred of the world’s top scientists—working in their labs on astonishing prototypes. He also takes into account the rigorous scientific principles that regulate how quickly, how safely, and how far technologies can advance. In *Physics of the Future*, Kaku forecasts a century of earthshaking advances in technology that could make even the last centuries’ leaps and bounds seem insignificant.

A Clinical Introduction to Lacanian Psychoanalysis Bruce Fink, 1999-09-15 The goal of my teaching has always been, and remains, to train analysts. --Jacques Lacan, Seminar XI, 209 Arguably the most profound psychoanalytic thinker since Freud, and deeply influential in many fields, Jacques Lacan often seems opaque to those he most wanted to reach. These are the readers Bruce Fink addresses in this clear and practical account of Lacan's highly original approach to therapy. Written by a clinician for clinicians, Fink's Introduction is an invaluable guide to Lacanian psychoanalysis, how it's done, and how it differs from other forms of therapy. While elucidating many of Lacan's theoretical notions, the book does so from the perspective of the practitioner faced with the pressing questions of diagnosis, what therapeutic stance to adopt, how to involve the patient, and how to bring about change. Fink provides a comprehensive overview of Lacanian analysis, explaining the analyst's aims and interventions at each point in the treatment. He uses four case studies to elucidate Lacan's unique structural approach to diagnosis. These cases, taking up both theoretical and clinical issues in Lacan's views of psychosis, perversion, and neurosis, highlight the very different approaches to treatment that different situations demand.

The Dream Thieves (The Raven Cycle, Book 2) Maggie Stiefvater, 2013-09-17 The second installment in the all-new series from the masterful, #1 NEW YORK TIMES bestselling author Maggie Stiefvater! Ronan Lynch has secrets. Some he keeps

from others. Some he keeps from himself. One secret: Ronan can bring things out of his dreams. And sometimes he's not the only one who wants those things. Ronan is one of the raven boys - a group of friends, practically brothers, searching for a dead king named Glendower, who they think is hidden somewhere in the hills by their elite private school, Aglionby Academy. The path to Glendower has long lived as an undercurrent beneath town. But now, like Ronan's secrets, it is beginning to rise to the surface - changing everything in its wake. Of *THE RAVEN BOYS*, *ENTERTAINMENT WEEKLY* wrote, Maggie Stiefvater's can't-put-it-down paranormal adventure will leave you clamoring for book two. Now the second book is here, with the same wild imagination, dark romance, and heart-stopping twists that only Maggie Stiefvater can conjure.

The Lacanian Subject Bruce Fink, 2017-02-15 This book presents the radically new theory of subjectivity found in the work of Jacques Lacan. Against the tide of post-structuralist thinkers who announce the death of the subject, Bruce Fink explores what it means to come into being as a subject where impersonal forces once reigned, subjectify the alien roll of the dice at the beginning of our universe, and make our own knotted web of our parents' desires that led them to bring us into this world. Lucidly guiding readers through the labyrinth of Lacanian theory--unpacking such central notions as the Other, object a, the unconscious as structures like a language, alienation and separation, the paternal metaphor, jouissance, and sexual difference--Fink demonstrates in-depth knowledge of Lacan's theoretical and clinical work. Indeed, this is the first book to appear in English that displays a firm grasp of both theory and practice of Lacanian psychoanalysis, the author being one of the only Americans to have undergone full training with Lacan's school in Paris. Fink Leads the reader step by step into Lacan's conceptual system to explain how one comes to be a subject--leading to psychosis. Presenting Lacan's theory in the context of his clinical preoccupations, Fink provides the most balanced, sophisticated, and penetrating view of Lacan's work to date--invaluable to the initiated and the uninitiated alike.

The Ideology of the Aesthetic Terry Eagleton, 1991-01-08 The Ideology of the Aesthetic presents a history and critique of the concept of the aesthetic throughout modern Western thought. As such, this is a critical survey of modern Western philosophy, focusing in particular on the complex relations between aesthetics, ethics and politics. Eagleton provides a brilliant and challenging introduction to these concerns, as characterized in the work of Kant, Schiller, Schopenhauer, Kierkegaard, Marx, Nietzsche, Freud, Heidegger, Lukacs, Adorno, Habermas, and others. Wide in span, as well as morally and politically committed, this is Terry Eagleton's major work to date. It forms both an original enquiry and an exemplary introduction.

The Problem of Unbelief in the Sixteenth Century Lucien Febvre, 1982 Lucien Febvre's magisterial study of sixteenth century religious and intellectual history, published in 1942, is at long last available in English, in a translation that does it full justice. The book is a modern classic. Febvre, founder with Marc Bloch of the journal *Annales*, was one of France's leading historians, a scholar whose field of expertise was the sixteenth century. This book, written late in his career, is regarded as his masterpiece. Despite the subtitle, it is not primarily a study of Rabelais; it is a study of the mental life, the mentalité, of a whole age. Febvre worked on the book for ten years. His purpose at first was polemical: he set out to demolish the notion that Rabelais was a covert atheist, a freethinker ahead of his time. To expose the anachronism of that view, he proceeded to a close examination of the ideas, information, beliefs, and values of Rabelais and his contemporaries. He combed archives and local records, compendia of popular lore, the work of writers from Luther and Erasmus to Ronsard, the verses of obscure neo-Latin poets. Everything was grist for his mill: books about comets, medical texts, philological treatises, even music and architecture. The result is a work of extraordinary richness of texture, enlivened by a wealth of concrete details--a compelling intellectual portrait of the period by a historian of rare insight, great intelligence, and vast learning. Febvre wrote with Gallic flair. His style is informal, often witty, at times combative, and colorful almost to a fault. His idiosyncrasies of syntax and vocabulary have defeated many who have tried to read, let alone translate, the French text. Beatrice Gottlieb has succeeded in rendering his prose accurately and readably, conveying a sense of Febvre's strong, often argumentative personality as well as his brilliantly intuitive feeling for Renaissance France.

History Continues Georges Duby, 1994-12-15 In this engaging intellectual autobiography, Georges Duby looks back on a career that has led him to be called one of the most distinguished historians in the Western world. Since its beginning in the

1940s, Duby's career has been rich and varied, encompassing economic history, social history, the history of mentalities, art history, microhistory, urban history, the history of women and sexuality, and, most recently, the Church's influence on feudal society. In retracing this singular career path, Duby candidly remembers his life's most formative influences, including the legendary historians Marc Bloch and Lucien Febvre, the Annales School so closely associated with them, and the College de France. Duby also offers insights about the proper methods of gathering and using archival data and on constructing penetrating interpretations of the documents. Indeed, his discussion of how he chose his subjects, collected his materials, developed the arguments, erected the scaffolding and constructed his theses offers the best introduction to the craft available to aspiring historians. Candid and charming, this book is both a memoir of one of this century's great scholars and a history of the French historical school since the mid-twentieth century. It will be required reading for anyone interested in the French academic milieu, medieval history, French history, or the recording of history in general. Georges Duby, a member of the Academie francaise, for many years held the distinguished chair in medieval history at the College de France. His numerous books include *The Age of Cathedrals*; *The Knight, the Lady, and the Priest*; *Love and Marriage in the Middle Ages*; and *The Three Orders*—all published by the University of Chicago Press.

Medieval Callings Jacques Le Goff, 1995-12-18 These essays by eleven internationally renowned historians present nuanced profiles of the major social and professional groups—the callings-of the Middle Ages. The contributors focus on attitudes of medieval men and women toward their own society. Through a variety of techniques, from a reading of the Song of Roland to a reading of administrative records, they identify characteristic viewpoints of members of the fighting class, the clergy, and the peasantry. Along with vivid descriptions of what life was like for warrior knights, monks, high churchmen, criminals, lepers, shepherds, and prostitutes, this innovative approach offers a valuable new perspective on the complex social dynamics of feudal Europe. Very useful discussions of texts, both learned and literary.—Christopher Dyer, *Times Literary Supplement* Contributors: Mariateresa Fumagalli Beonio Brocchieri, Franco Cardini, Enrico Castelnuovo, Giovanni Cherubini, Bronislaw Geremek, Aron Ja. Gurevich, Christiane Klapisch-Zuber, Jacques Le Goff, Giovanni Miccoli, Jacques Rossiaud, and André Vauchez.

First published in two volumes during 1793, it was one of the seven horrid novels recommended by the character Isabella Thorpe to Catherine Morland in Jane Austen's novel *Northanger Abbey* and was an important early work in the genre, predating both Ann Radcliffe's *The Mysteries of Udolpho* and Monk Lewis's *The Monk*.
